**Dear Customer,**

Thank you for your enquiry.

Due to a tightening of regulations around chemical supply within Australia, we are now enforcing stricter compliance with Drug Precursors and Poisons.

We have worked closely with the State Department's Crime Divisions nationally to ensure that Westlab is compliant with the relevant chemical regulations.

As a result, the End User Declaration Form is mandatory for all purchases of specified chemicals from Westlab. Note that this does not exclude schools. Before an order can be dispatched with EUD Required Chemicals, our customers are required to complete the EUD form and attach a copy of their driver's licence.

In turn, we email both documents through to the Victorian State Police Crime Desk for approval. If the customer is from another state, the Victorian division will then send the request through to the relevant State for approval. Once approval has been granted, Westlab is notified, and will immediately dispatch your order.

If you have any further questions regarding compliance, feel free to email [sales@westlab.com.au](mailto:sales@westlab.com.au).

Kind regards,

**Alice Elford**  
Product Manager
